RE: Safety Light Corporation Site (Bloomsburg, PA)

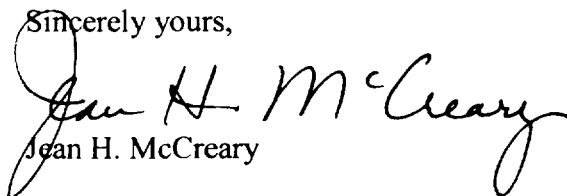

Dear Mr. Ferdas:

I am writing on behalf of the University of Rochester (UR), which received on July 27, 2005, your letter of July 21, 2005, consisting of an information request pursuant to Section 104(e) of CERCLA for documents and information concerning the above-referenced site. This letter confirms a request made in a voice mail left for Ms. Gail Wilson, who was identified in your letter as EPA's attorney in this matter.

The information request calls for documents and information for the period 1945 to the present (a 60-year window) within 30 calendar days of receipt of the letter. Given the age of the information being sought, and the fact that the request arrived during peak vacation period, the UR requests an extension until October 3 to respond. It will be necessary to determine if any archived records exist and to conduct investigations into matters well before the recollection of any current employees, since the only record attached to the request referencing the UR is dated 1955.

The UR will begin its investigation immediately, and will reply sooner than October 1 if it is able to do so. The UR would welcome hearing from Ms. Wilson if there is any additional information concerning the Safety Light Site that can be provided to assist the UR in conducting its investigation that is not available from EPA's Web site. Thank you for your consideration.

Sincerely yours,

Jean H. McCreary

cc: Gail Wilson, Esq. (EPA)
Richard Crummins, Esq. (UR)
